

The Daily Gazetteer.

MONDAY, AUGUST 18. 1740

91: 1609.

Since our last arriv'd a Mail from Holland,

Cadiz, July 26. N. S.

His Chamber of Commerce has made a considerable Remittance to Madrid, being great Part of the Loan which the King borrows of the Merchants of this City. They write from Ceuta, that Muley Abdallah, who is now the quiet Possessor of the Throne of Morocco, having

acknowledg'd Emperor by all the People of that Country, made his Entry into Morocco about the End of June last with very great Pomp, and afterwards did the same at Mequinez; and that the Pretenders to the Empire of Morocco, who have occasion'd a Civil War in that Country for many Years past, are all dead.

Madrid, Aug. 2. N. S. M. P.—, a Lawyer at the Groyn, has been apprehended, and all his Papers seiz'd, upon Proof that he maintain'd an illegal Correspondence with the English Consul at Port-a-Port, and that he had several Times receiv'd Money to give Intelligence of the State of the Place. For this reason he is condemn'd to be hang'd, together with two Agents of his, by whom he sent and received his Letters.

They write from Lisbon, that the King of Portugal going abroad some Nights ago in a Disguise, attended only by one Gentleman, that he might be an eye-witness of the Truth of some Facts that were reported to him, he was assaulted by some Ruffians; rather than make himself known he drew his sword, and oblig'd them to fly, after having wounded one of them, who were apprehended next Day, upon Information of the Surgeon by whom they were seiz'd. 'Tis said a fresh Dispute is arisen betwixt the Court and Lisbon, upon Account of some Ceremonial; and that this is the only Reason that has retarded the Departure of the Ministers that are to go from the one Court to the other.

It has been resolv'd in the Council of Finances, to throw several Millions from the richest People in the Kingdom. On the 14th was celebrated at Court the Birth-Day of the late Cardinal, who then enter'd into the 14th Year of his Age.

They write from Ferrol, that six Men of War are sent out of that Harbour, so that the Squadron now consists but of 16 Ships of the Line of Battle; but they are well mann'd, and furnish'd with all Necessaries. The Heat of the Weather obliges the Troops of Galicia to be canton'd, but they are so dispos'd of the Villages nearest to the Sea, that they may soon be brought together. They write from Gibraltar, that the Spanish Camp before that Place is re-inforc'd with 3000 Men of choice Troops, and a Train of 40 pieces.

Petersburgh, Aug. 2. N. S. The Tartars inhabiting the Eastern Part of the Kingdom of Casan, between the Rivers Kama and Wolga, had form'd a Design to take off the Dominion of Russia; but their pernicious Projects were detected in time, and the Rebels were reduc'd to their Duty by some Russian Troops that were sent against them. The Heads of the Rebellion have been since apprehended and carry'd to St. Petersburg, where they have been publicly executed for a Warning to the rest of that Nation.

Vienna, Aug. 10. N. S. The Indisposition of the Turkish Ambassador which was at first believed to be counterfeit'd, purely to obtain some Alteration in the Ceremonial of his Publick Entry into this City, proves to be real; and Yesterday he was said to be very bad, and that he spits Blood. Upon this an Express has been sent to acquaint him, that if his Health did not permit him to make his Publick Entry, he might delegate the Commission to the Person whom the Emperor had wisely appointed for that Purpose, in case of his Sickness or Death. But the Ambassador not approving of this Proposal has sent one of his Officers with an Interpreter, to beg to be excus'd both by the Emperor, the Magistrates, and Burghers, for the Disappointment, adding, that he hop'd he should soon recover, but that if his Indisposition continu'd, he flatter'd himself they would indulge him to make

his Entry in a Coach. This Demand of his is now under Consideration, and several think it may be granted him, on condition of his signing a Paper, declaring that he accepts it as a mere Act of Favour, which ought not to be made a Precedent.

Rome, Aug. 6. N. S. Cardinal Aldrovandi, a Creature of Benedict XIII. who had for a Fortnight or more 31 Votes every Time upon the Scrutiny, gain'd on the 2d Instant one more, which was 32 Votes, who have ever since given him their constant Suffrage, and seem resolv'd not to depart from it. On the other Hand, the 18 opposite Cardinals of Albani the Chamberlain's Party, seem no less determin'd to thwart him; so that if some Way be not found to gain the two Voices that are only wanting for Aldrovandi, 'tis to be fear'd the Conclave, which is already the longest that has been known for three Centuries, will be still more tedious. Mean time the Town grows every Day more miserable, and the People's Murmurs increase because a great many Hands have nothing to do, which used to get a Livelihood by the Dispatch of Presentations to Benefices, and other Instruments, which are at a Stand during the Vacancy of the Holy See.

Ratisbon, Aug. 15. N. S. The Appeal of Prince William of Hesse-Cassel to the Dyet is an Affair that makes a great Noise. The Emperor's Resolution upon it has been read in the three Colleges of the Dyet, but the Ministers have not yet had any Copy of it; tho' one has been dispatch'd to the King of Great Britain at Hanover. Mean time, 'tis said the Terms of it are pretty harsh, and not much in Favour of the Appellant. The Prince de Furstenberg, the Emperor's chief Commissioner, sent for the Minister of Hesse several Times to come to him, that he might acquaint him with his Imperial Majesty's Resolution, but he was seldom at home; and the last Answer he sent him was, 'That as he knew the Prince had nothing agreeable to say to him, he desir'd him to be so good as to excuse him from waiting on him.'

Berlin, Aug. 16. N. S. His Majesty has resolv'd to recall Professor Wolff to Hall, and to declare him his Privy Councillor and Vice Chancellor of that University, where he is, among other things, to teach the Law of Nature and Nations, and the Mathematicks. Yesterday his Majesty set out for Cleves. He propos'd to be at Wezel by To-morrow Se'nnight, and to be back again by the 15th or 16th of next Month.

Leipsic, Aug. 16. N. S. Yesterday in the Afternoon his Majesty arriv'd here from Potsdam, and pass'd thro' this City under a Discharge of the Cannon from the Ramparts, for Bareith, to see his Sister the Margravine, who is indispos'd; after which he will proceed to Francfort on the Main in his Way to Cleves, where great Preparations are making for his Reception.

Hanover, Aug. 21. N. S. On Wednesday Evening the 17th Instant, his Majesty came from Herenhausen to see a Comedy, which was perform'd in the Playhouse at the Castle here, at which were also present their Highnesses the Prince and Princess of Hesse, and his Sister the Princess Mary, with a great many of the Nobility and Gentry. About Nine, the Play being over, his Majesty and their Highnesses return'd to Herenhausen. And on Thursday Night there was a Ball in Herenhausen Gardens; the Theatre in the Garden was illuminated in an extraordinary Manner on this Occasion; the Ball was opened about Eight of the Clock, and lasted till Four in the Morning. A great Number of the Chief of the Nobility and Gentry both in Court and Town appeared there, who were entertained in a very elegant Manner with all Sorts of Refreshments.

Cologne, Aug. 19. N. S. The 15th being the Elector's Birth-day, who then enter'd the 41st Year of his Age, his Electoral Highness was complimented thereupon by the Ministers of State and Foreigners; and the same Day Lightning fell in the Neighbourhood of Neuss, by which three Persons that retir'd to a Windmill for Shelter from the Storm were kill'd, and a fourth so dangerously hurt that his Life is despair'd of.

Paris, Aug. 16. N. S. There have been several Storms here of late, by which the Corn and other Fruits have receiv'd great Damag. On the 9th Instant the Arm of the Parson of Mennelai in Picardy

was carried away by Lightning, and the Mast-boat that he had in his Hand was burnt. A Woman near Clermont had her Body split in two. Another Woman near Mondidier was also kill'd, and four Young Men were depriv'd of their Senses by the same Storm.

Offend, Aug. 17. N. S. The last Advices from Breff say, that the Marquis d'Antin's Squadron was not yet sail'd from thence, nor was any Preparation making for its Departure, the Marquis having not yet receiv'd any Orders from his Court for that Purpose.

L O N D O N.

Advices of the 6th and 7th from Francfort and Brussels say, that Prayers are put up in all their Churches for the Return of Fair Weather. A Letter from Francfort shews that there are Wonder-makers in these Parts as well as here, who amuse the Public with strange Prodiges, such as the Raining of Corn in one Place, and Wine in another, and a Thorn not far from Hambourg, more miraculous by far than that at Glastonbury in Somersetshire, which is said to bear ten or twelve different Sorts of Fruit at once.

Last Friday, Mr. Perkins, a Dealer in Coals, returning from Paddington, where he had been to receive some Money, was attack'd in the long Field near Marybon by two Footpads, who, not content with taking his Money, in an impudent and wanton Manner roll'd him into a Pond of Water at the Side of the Road.

Same Day about Half an Hour after Nine o'Clock, Mr. James Lowe, of Queen-street, Golden-square, was attack'd and robb'd by two or three Footpads, in the narrow Walk leading to the Halfway-house at the Head of the Reservoir.

And much about the same Time and Place Mr. John Edmund Misauin, of St. Martin's-lane, was attack'd and murder'd (but not robb'd) by the same Fellows. And on Saturday the Coroner's Jury sat on his Body, and adjourn'd to this Day.

Also the same Night, about 9 o'Clock, Mr. Powell, a Mason in Wimple street, was attack'd near the Reservoir in Marybon fields by three Footpads, who robb'd him of two Guineas, some Silver, a Silver-Watch, and his Hat and Wig, then bound him Neck and Heels and threw him into a Ditch, where he lay above an Hour before he could release himself.

Yesterday a Messenger arriv'd at Whitehall, with an Express from his Excellency Mr. Finch, his Majesty's Minister at the Court of Russia.

The same Day died in Grosvenor-square the Hon. Miss Obryen, eldest Daughter of the Right Hon. the Earl of Inchequin, of the Kingdom of Ireland.

The same Day the Hon. Master Monson, Eldest Son and Heir of the Right Hon. the Lord Monson, lay at the Point of Death of the Small pox, at his Lordship's House in Albemarle-street.

Henry de Grey, Esq; Member of Parliament for Reading in Berkshire, is not dead, as was reported, but is judg'd to be in a fair Way of Recovery.

A few Days since Mr. Machin, an eminent Timber-merchant, was married at St. Benet's Paul's-wharf, by the Rev. Dr. Thomas, to Miss Anne Hodson, Neice to Mr. Hodson of Soke, a beautiful young Lady with a Fortune of 5000 l.

On Saturday last Samuel Holden of East Gristead, Esq; was married at St. George's Hanover-square, to Mrs. Houghton, a Widow Lady, said to be worth Forty thousand Pounds.

On Saturday Morning last Three Houses fell down in Plumbred-street, but happily did no other mischief than shaking the School-house belonging to St. Giles's, and frightening the Children, the Houses being uninhabited.

The same Day a Drummer belonging to the Guards stood on the Pillory at Charing-cross, for the Space of one Hour, pursuant to his Sentence at Hicks's Hall, for uttering false and counterfeit Money.

PARALYTICON, seu Anima Nervorum A Stupendous Chymical Effence, which infallibly cures the Palsy, and all other NERVOUS DISEASES:

THE very first Dose of it (a few Drops

only) instantly penetrates the inmost Recesses of the Nerves, and darting almost as quick as Lightning thro' the whole Human System, diffuses kindly Warmth and genial Comfort to the weaken'd Limbs, and all Parts of the Body, and affords immediate sensible Relief in the most obstinate Palsy, and all Paralytic Effects, Shaking, Trembling, Numbness, Deadness, and Weakness, whether universal, or of particular Parts only, or whether contracted, or of many Years Continuance.

And as the very first Dose makes an apparent demonstrable Amendment, so the continuing of it for a short Time as surely accomplishes a perfect Cure, nor only of the most grievous Palsy or Residuum of the Nerves, but also of their Cramp-like Contractions, Shaking of the Sinews, and all other Nervous Complaints, whether that in Persons of either Sex, or of any Age, and whether occasioned by preceding Illnesses, fast Living, hard Drinking, long Courses of Physick, great Colds, or excessive Fatigues of the Mind or Body.

Words cannot sufficiently express the uncommon, the unparallel'd Efficacy of this great Medicine, as all who take it frankly acknowledge; and its vastly superior Excellency to all other Remedies, may be more securely rely'd on, for the absolute Cure of the Palsy, and all Paralytic Effects and Nervous Indispositions, than the Colicoid Cortex is for Intermittents.

It rectifies all Disorders of the first Passages, creates an Appetite, procures a good Digestion, enriches the Blood, restores the usual Vigour and steady Use of the Limbs, and strengthens the infirm Joints, Muscles, Tendons, Ligaments, and whole Habit to its prime Degree.

It is also very pleasant to take, is comforting and cordial to the Stomach and Bowels, and for Safety might be given to the youngest Infant.

It is to be had only, by the Author's Appointment at Mr. Radcliffe's Toyshop, at the Rose and Crown against St. Clement's Church in the Strand, at 3 s. 6 d. a Bottle, with printed Directions in large.

The so-much Fam'd HYPO-DROPS.

Which in a few Days infallibly cures

HYPOCHONDRIACK MELANCHOLY in Men, and the VAPOURS in Women, so as never to return again, be they ever so severe, or of many Years standing, and even after all other Remedies have prov'd ineffectual; and that by immediately striking at the very Root or true Cause, as well as removing the Effects, of those perplexing Maladies and all their various Symptoms, by which they mimic, by Turns, almost all the Diseases poor Mortals are afflicted with, and have their Rise from a depraved Appetite, vicious Ferment in the Stomach, and Indigestion of Food, whence proceed Cruditates and flatulent or windy Disorders in the first Passages, belchings, Cholick, Uneasiness in the Bowels, and all those which offend the Nerves, and, by Consent of Parts, affect the Head, and produce sometimes Giddiness, Dimness of Sight, confused Thoughts, pertinacious Watchings, troublesome Sleep, Frights, groundless Fears, and the deepest Melancholy with direful Views and terrible Apprehensions; or, at other times, Fits, Flushing Heats, Reachings, Faintness, Lowness and Sinking of Spirits, Palpitation of the Heart, Startings, Tremblings, and Twitchings in the Limbs and other Parts, with many convulsive Disorders, sharp Pains, fixed or wandering Pain and Weakness in the Back, and other, almost innumerable and grievous, Symptoms, which miserably afflict vast Numbers of both Sexes.

All which Symptoms, in their sharpest Paroxysms, tickle the much fam'd and most pleasant Drops, (which are Chymically prepar'd from the most valuable Specifics in the Mineral, Vegetable, and Animal Kingdoms, and exalted to the highest Degree of Perfection possible) instantly quell, and in a very short time annihilate their real Cause, directly bringing the Stomach into right Order, creating a good Appetite, restoring the Digestion, occasioning laudable Chyle, and, of course, a good Blood, Plenty of calm, free, and cheerful Spirits, a regular Circulation of all the Fluids, and Strength of Nerves, so that both Cause and Effects of Melancholy and Vapours are thoroughly removed by them, almost on the Spot, and many Thousands of both Sexes they have perfectly cured.

Whoever takes them for 3 Days only, will be sensible they are absolutely to be depended upon for an effectual and lasting Cure, and certain it is, that no Medicine upon Earth can equal them; be careful therefore to have the right Drops, which are to be had only at Mrs. Holt's, at the Clock Lane and Star in Cornhill, near Stocks-Market, at 3 s. 6 d. a Bottle with Directions.
